## ABOUT KITO WEISSENFELS

---

We are an **historic manufacturer** with a long tradition specializing in production and sales of **lifting equipment**. We manufacture a wide range of **lifting and hoist chains**, **accessories** and **master links** which address all lifting needs.

Since **2016** we are part of the **KITO Group**, a worldwide leader in the hoist and crane business, and we're brought together by the same goal:

**Deliver *Unmatched Satisfaction* to Our Customers!**

## OUR MISSION

---

At **KITO Weissenfels** we are committed to provide our customers **unmatched satisfaction** through **safe, durable** and **user-friendly** lifting devices. Our products are designed and manufactured keeping in mind **customers' needs** and following **KITO's driving Spirit** which is **Quality**.

# KITO WEISSENFELS ADDED VALUE

**COMMITMENT TO  
CUSTOMERS**

**EXPERTISE**

**INNOVATION**

# QUALITY

Our **management system** complies with the **EN ISO 9001:2015 standard** and our products are certified by the **DGUV** (“H37”) and **DNV** (for our Offshore Line).

Our products are designed, manufactured and tested exceeding the requirements of the applicable **standards.**

Our **in-house manufacturing** guarantees full control over the process hence ensuring the product quality.

All the partners in our **Supply Chain** are carefully evaluated and selected.

# COMMITMENT TO CUSTOMERS

Their **trust** is our top priority.

Our products are designed keeping in mind  
their **needs**.

We strive to provide them a **superior and  
consistent service level**.

# EXPERTISE

KITO Group's extensive know-how and innovation complements centuries-old experience in product design and manufacturing in order to meet all our customers **lifting expectations.**

# INNOVATION

Continuous Corporate **R&D activities** directed towards improving both our products and our manufacturing processes.

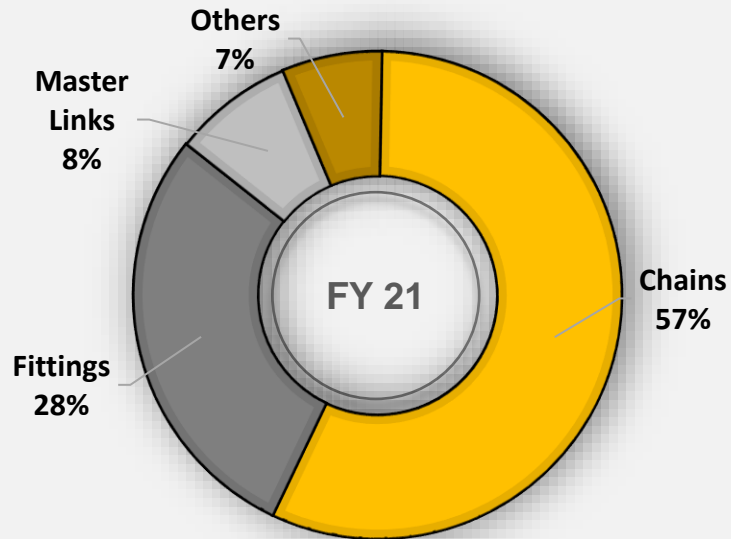

Our production is performed on **state-of-the-art machinery** with **cutting-edge technology**.

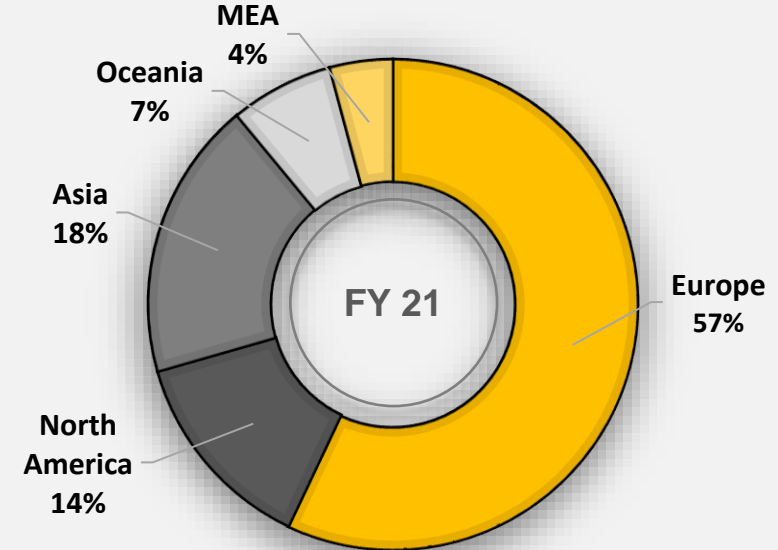

Partnership with our suppliers to **develop new material characteristics** to better suit our production needs and to boost our products features.

VIS LINE**

**Grade 8  
CLASSIC LINE**

**Offshore**

**Technical Chains**

# HOIST CHAINS

We supply **Gr. 8 and Gr. 10 quenched and tempered chains (T and V Series)** for manual and lever hoists and **case-hardened chains (DAT and DT Series)** for power-driven hoists, designed for a higher wear resistance.

Our Weissenfels-branded hoist chains are manufactured in compliance with the **EN 818-7** and **JIS B 8812 standards** and are available in diameters ranging from 3 to 16 mm. *(Further sizes available upon request).*

**Surface finishing:**

Electro-galvanized

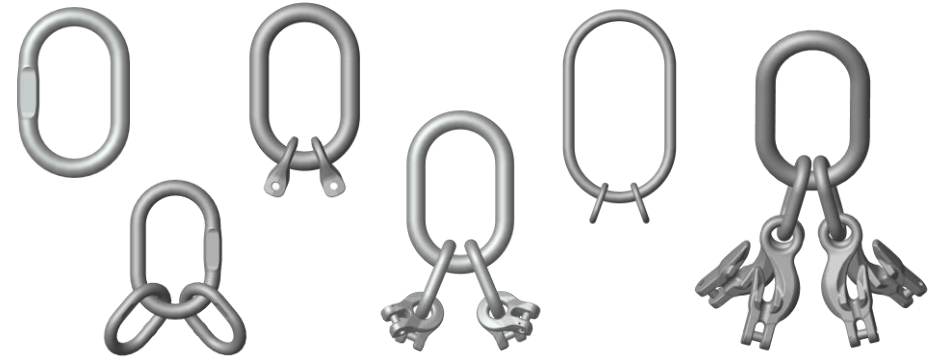

Phosphate oil polished
